Features & Benefits

Microplane Graters : the world's sharpest grating blades!

Our long-lasting, photo-etched, stainless steel Blades - Made in USA offer the following benefits to the professional and hobby chefs :

- **Preserves aromas** : Cutting food precisely without ripping, tearing or shredding – preserves and intensifies food's aroma and flavor.
- **Efficient & Precise** : Grating without effort – no need to put pressure on the food while grating. The blade also ensures that food does not stick or block, but instead, gently slides along the cutting surface to produce perfect results every time.
- **Enjoyable** : Grating becomes fun – you do not have to struggle with a dull grater anymore
- **Versatile** : with each blade you can grate a variety of foods – it all depends on what result you wish to have

All Microplane products are practical. They have long-lasting blades, ergonomic handles, non-slip base for stability, protective covers for easy storage and dishwasher safe.

- Microplane - the original manufacturer of photo-etched culinary tools (patent protected in USA from 1990 to 2010)
- Microplane has over 40 years of experience in the photo-etching technology
- Ultra-sharp blades, due to a single sided etching technology vs stamped or double sided etching
- Long-lasting, stainless steel blades - Made in the USA
- Graters are made from start to finish in our own factories, no outsourcing
- Only the highest quality stainless steel is used
- Harder steel than competitors for maximum sharpness
- Ergonomic handle for comfort
- Non-slip base for stability and to avoid damage to work surfaces
- Protective covers for safe and easy storage
- Simple and effective to use
- Simply rinse to clean, top rack dishwasher safe
